

Carole in New York fussy cut the center of this gorgeous, lacy Feathered Star .

Carole wrote:

"I love this pattern and the way it went together with such ease, like a dream. I would never have attempted this had it not been for Inklingo."

Let the feathers fly! All of Kathy's fabrics are owl designs!

There are unprecedented design options for stunning Feathered Star Quilts thanks to Inklingo innovations for sewing and pressing precise triangles.

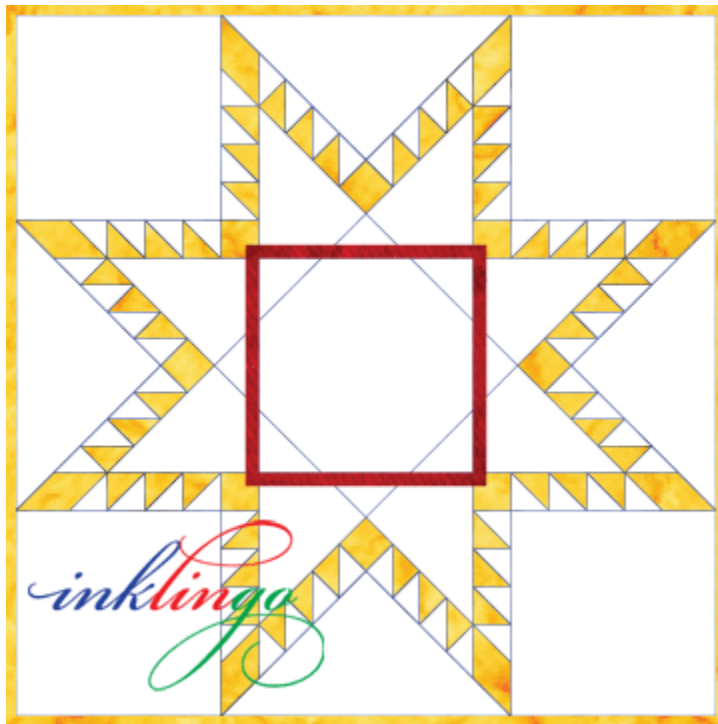

Since printing with Inklingo is such a fast, accurate way to prepare the shapes, you can afford to spend time perfecting your design and choosing fabric, like Kathy in TN.

Kathy is an expert quilter—but Feathered Star is not just for experts anymore!

Inklingo is all about making quilting more accessible. That means making it easier for beginners and also keeping experienced quilters inspired.

With that in mind, Inklingo has a totally new approach to Feathered Star .

One of several innovations with Inklingo Feathered Star is that you can use standard blocks in the center to give create your own unique variations! (red box above).

Insert any 4.5, 6 or 9 inch block for small, medium and large Feathered Star blocks!

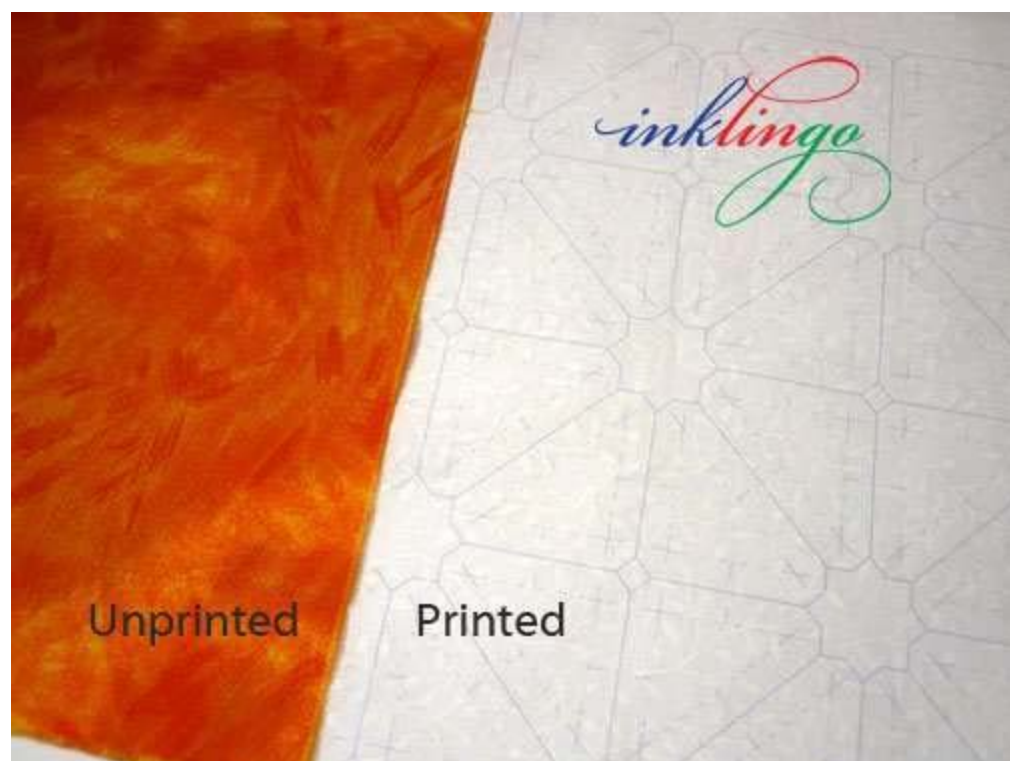

Feathered Star with Yin Yang!

You can even use the shapes in the FREE Diamond Triangle Square shape collection for the center of a 15 inch Feathered Star block !

Ronda of *Momma Made This* has a slide show of 20 Feathered Star designs you can sew with Inklingo!

Feathered Star is a wonderful example of ways you can print a few sheets of fabric with your ordinary Inkjet printer to sew hundreds of triangles into feathers.

Print one fabric and layer with un-printed fabric.

Sew along the diagonal lines. (It is so fabulous to have a line to sew along!)

Cut . . .

. . . and press !

You might be surprised that making a Feathered Star can be condensed into an 80 second video. That's seconds, not minutes.

The printing, cutting, sewing and pressing whiz past very quickly in the video, but don't worry! The Inklingo Feathered Star Design Book includes detailed instructions for designing, sewing, and pressing your Feathered Star Quilt and it is free when you buy the shapes to print on fabric (\$20 value).

There is more information about Feathered Star at these links.

Feathered Star is just one of many designs requested by Inklingo quilters. They recognize that having the cutting lines, stitching lines, matching marks, and crosshairs printed on the fabric is the simplest and best way to make any design, no matter how complicated it might be with traditional methods.

BONUS TIP

If you have Electric Quilt software, "Radiant Star " is in the block library!

Use Electric Quilt to play with fabric swatches and quilt layouts and then print the shapes on fabric with Inklingo! There are several free EQ project files on the All About Inklingo blog .
