

Inklingo Quilt Studio — Tester Checklist

Thank you for helping test the Inklingo Quilt Studio. Please check items as you work and add notes if appropriate. There are no wrong answers. You don't have to use this checklist. It is just a guide. Please send your feedback to linda@lindafranz.com.

- Mac
- Windows PC

Printer model: _____

First Impressions

- Download and install were straightforward
- Security warning appeared (Windows/Mac/neither)
- Instructions for proceeding past the warning were clear
- Opened successfully
- Overall first impression (notes):

Logging In

- Logged in with usual Inklingo email and password
- Login process felt clear
- Log out / log back in worked as expected
- Closing and reopening did not require login

Navigation & Clarity

- Could easily find shape collections
- Could open and view shape collections
- Interface felt clear and uncluttered
- Terminology made sense

Printing Custom Size - Portrait

- Printed to scrap paper
- Printed to fabric on freezer paper
- Fabric placement felt logical
- Output size was correct
- Stitching lines and marks printed clearly

Printing Custom Size - Landscape

- Printed to scrap paper
- Printed to fabric on freezer paper
- Fabric placement felt logical
- Output size was correct
- Stitching lines and marks printed clearly

Freezer Paper

- Did not need to cut freezer paper to custom size
- Positioning fabric required experimentation
- Cheat sheet would be helpful for beginners

Errors or Glitches

- Crashes
- Slow performance
- Broken links in the shape collections
- Typos or wording issues
- Other

Your Thoughts

- I would feel comfortable recommending *Inklingo Quilt Studio* to another quilter.
